Re Rose

Dear Mr. Gallina,

I would personally like to thank both you and Pablo, for the way that you handled my aunt's lawsuit against the City of New York.

Pablo was outstanding. When he gave his presentation, I found him to be meticulous to detail and able to think quickly on his feet. He always kept focused on the "big picture".

I would like to think that I would have written this note, regardless of the outcome of the case. Winning though, does make it nicer.

My aunt would have been pleased with the outcome.

Thanks again,

Nick
